CDK FINANCIAL SERVICES, LLC
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2007

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

CDK Financial Services, LLC (the "Company"), is a Delaware Limited Liability Company that is a broker-dealer registered with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority. The Company is focused exclusively on the private placement of hedge funds to sophisticated institutional and high net worth investors. The Company is engaged by several hedge fund managers, located both in the United States and offshore. The Company's revenue is derived from placement fees, which are related to management and performance fees. These fees are received by the Company's clients on the assets placed by the Company by investors in hedge funds managed by the Company's clients. The Company does not handle clients' funds or securities and is not otherwise engaged in securities trading.

Government and Other Regulation

The Company is subject to significant regulation by various governmental agencies and self regulatory organizations. Such regulation included, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Concentrations of Credit Risk arising from cash deposits in excess of insured limits

The Company maintains its cash balances at a major banking institution. The balances are insured by the Federal Deposit Insurance Corporation up to \$ 100,000. At December 31, 2007, the Company's uninsured cash balances totaled \$ 930,663. The Company does not believe that it has any risk with respect to its cash balances.

Receivables

Receivables are uncollateralized obligations due under normal trade terms. The carrying amount of receivables may be reduced by an allowance that reflects management's best estimate of the amounts that will not be collected.

CDK FINANCIAL SERVICES, LLC
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2007

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES- CONTINUED

Since management believes that the receivables recorded are fully collectible and are therefore stated at net realizable value, at December 31, 2007, management has not provided an allowance for doubtful accounts. For the year ended December 31, 2007 approximately 86% of the receivables are from one unrelated entity and therefore represent a concentration of credit risk.

Use of Estimates

The presentation of financial statements requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the revenues and expenses during the reporting period. Actual results could differ from those estimates.

Deferred Income Taxes

The Company is treated as a partnership for federal and state income tax purposes. Consequently, federal and state income taxes are not payable by, or provided for, the Company. Members are taxed individually on their share of the Company's earnings. The Company's net income or loss is allocated among the members in accordance with the Company's operating agreement.

Deferred tax assets and liabilities for New York City income tax purposes are recognized and provide for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities utilizing the accrual method of accounting and their respective income tax bases utilizing the cash method of accounting for income tax purposes. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in years in which those temporary differences are expected to be recovered or settled.

Revenue Recognition

Revenue from placement fees related to management and performance fees, are recorded on the accrual basis, at the time when fees are determined to be earned based upon contractual arrangements.

INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL REQUIRED
BY SEC RULE 17a-5

WILLIAM T. McCALLUM, CPA, P.C.

780 Third Avenue
New York, New York 10017
(212) 644-6464

To the Members
CDK Financial Services, LLC
New York, New York

In planning and performing our audit of the financial statements and supplementary information of CDK Financial Services, LLC ("the Company") for the year ended December 31, 2007, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g) (1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objective stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a) (11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are

required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicted a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the use of management, the SEC, the Financial Industry Regulatory Authority, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
